Health Guidelines

Please keep your child at home if your child:

- has a fever or has had a fever in the past 24 hours
- has vomited or had diarrhea in the past 24 hours
- has discharge in or around the eyes
- has a green or yellow runny nose
- has excessive coughing
- has a questionable rash
- has any communicable disease.

If your child is being treated with an antibiotic, he or she should have received treatment for at least 24 hours before coming to the nursery. The parent **MUST** administer any medications for the child.

Thank you for helping to keep our children healthy!

Nursery Check in and Child Pick Up

CHECK IN

- Please place a check mark by your child's name on the check in sheet. Knowing the number of children present is important for scheduling the correct number of volunteers each week.
- Pick up and turn on a pager that has the same number as the name tag. We will page you if you are needed.
- Label any sippy cups
- Use the small tag to label your diaper bag or a plastic bag containing a diaper
- NAME TAGS
- The large tag goes on your child
- Please indicate your preferences for your child's care on the name tag.
- You may write on the paper itself if you want the same information from week to week
- You may write on the plastic with a marker if you want the ability to alter instructions from week to week.
